# Go!Control

CREATING AND USING RULES

# Creating & Using Rules

▶ Rules allow us to assign a scene to run for a specific event that occurs on the control panel.

  ▶ For example when you arm the alarm, a rule can trigger a goodbye scene that turns off lights and locks the door.

# Creating & Using Rules

1. From the home screen, press **Home Services** and **Z-Wave**.

# Creating & Using Rules

2. Select **Rules**, then **Add Rule**

# Creating & Using Rules

3. Use the left or right arrows to choose a *system event* and *scene* for the panel to trigger, then press OK.
